

SLAV MASTERCLASS SERIES 2020

An Online Masterclass Series Powering Learning: with Kevin Hennah

Session One – Genrefication Showcase

Thursday July 23

Implementing a genre-based layout across both Fiction and Non-fiction may be a powerful way to build loan stats and bolster the relevance of libraries. Kevin Hennah strongly believes this is so and his results back up his belief. Impressive photographs from schools that have implemented Kevin's advice coupled with equally impressive usage stats may inspire you to reinvent your collection.

Session Two – Inspired Library Layout & Seating

Wednesday August 19

Learning spaces in libraries must offer a point of difference over classrooms and there's simply nothing engaging about an aisle! Join Kevin Hennah as he challenges traditional ideas on library layout and seating whilst delivering practical advice at all budget-levels.

Kevin Hennah has carried out approximately 2000 onsite consultations at libraries internationally. His keynote presentations and workshops have been delivered throughout Asia, Europe, The USA, Canada, The UAE Australia and New Zealand. He has a wealth of ideas to share and is passionate about keeping school libraries relevant.

Kevin's background includes over 20 years experience working with international retail brands such as The Body Shop, Kathmandu, OshKosh and Westfield on store design, layout and visual merchandising. In 2002 he made the transition to work with libraries on strategies to maximise productivity of space, improve presentation and maintain relevance. His understanding of the operational requirements of libraries is coupled with practical advice that is sensitive to budget restrictions and challenges traditional thinking. He is the Author of The Victorian Public Libraries' Image Handbook and the featured author in Re-think, Ideas for Inspiring School Library Design.

Kevin has input into the design of dozens of new libraries internationally. He also provides guidance to library staff on the coordination of self-managed makeovers at all budget-levels. Through this process, he has helped clients achieve a significant increase in usage by creating what he refers to as the 'Post-Internet Library' – a level playing ground between print and online resources.

As an extension of his conference presentations, Kevin has developed a suite of library-specific workshops exploring innovation in library design, layout, furnishings, navigation and signage. His workshops have been delivered throughout Australia as well as The USA, Canada, Japan, Hong Kong, Malaysia, Singapore, Thailand, The Philippines, Laos, New Zealand, Qatar, Dubai, Romania and Belgium.
