

Book Covering, Basic Repairs & Upcycling Books

The School Library Association of Victoria is offering the following three opportunities. Please register, or express an interest via email, as the events will only run if we have adequate numbers.

All three workshops have minimum and maximum number limits. All levels of library professional and volunteers are welcome.

Workshop Content

Learn how to keep your books looking good for longer using a variety of covering materials. Using simple repair techniques give old favourites a new lease on life.

This is a hands-on workshop using library-specific covering and mending materials led by school library staff. We will share ideas and approaches to covering and discuss the various ways schools address covering decisions.

All covering materials supplied. We will have some books for practice available but please do bring your own too. Bring along covering challenges – approaches to be discussed.

We will also look at ways to fold and work with discarded books to create sculptures, and objects of interest for use in displays and promotions.
